learn@AP EXTERNAL SPEAKER SERIES:

DEVELOPING A PROFITABLE MOTOR BUSINESS IN A DE-TARIFF MARKET

The Malaysian general insurance industry will be experiencing detariffication in stages over the next few years starting with the removal of the motor insurance tariff. How should insurers respond to this new environment?

learn@AP has invited Mr. Tan Kin Lian, FIA and former CEO of NTUC Income, to share his experience in operating in this environment. Mr Tan was personally involved in directing the strategy for the motor insurance business of NTUC Income for over 20 years.

The motor insurance industry in Singapore has operated in a non-tariff environment for the past four decades. NTUC Income was able to find the right approach towards operating in this free market environment and became the largest and most profitable insurer in the market.

Among the topics to be covered:

- The approach taken by NTUC Income over three phases of its development which covers a period of 20 years.
- How insurers should operate in the de-tariffed environment of today. The environment of the future is different from the past three decades!
- Business Simulation Game where participants will operate a motor insurance business in a competitive environment.
